

Appendix D. Election Eligibility

Introduction

Persons must be active (certified) in a program (e.g., VE, IT, or Operations) in order to be eligible to run for office. After assuming additional responsibilities of the position, Auxiliarists do not need to maintain the certification(s) to take or hold the office to which elected. Persons must be active in a program to run for re-election or election to another office.

With DCO concurrence and Director approval, flotillas and divisions may hold elections without regard to the date of the district election. This allows more flexibility for divisions/flotillas that do not have candidates for higher office at the next level (district for division, division for flotilla) to hold their elections early each year, and better enables them to meet end-of-year commitments.

This appendix provide election eligibility requirements and related information pertaining to flotilla, division, district, and national level leaders.
